Washington, April 25.-Minister Bowen will to-morrow be recalled from Caracas to produce whatever proof he has of the grave charges made by him against Assistant Secretary Loomis of the State Department.

Secretary Taft, it is understood to-night. has heard from President Roosevelt, approving his proposition to direct Minister Herbert W. Bowen at Caracas to report to Washington, to explain the charges against Assistant Secretary Loomis. Secretary Taft accordingly will act in

the matter to-morrow. President Roosevelt is directing by telegraph, from his hunting camp in Colorado, the investigation of the grave charges preferred by Mr. Bowen against the official integrity of his superior officer. Secretary Taft has submitted all developments of the case to the President and will act upon his instructions. Throughout Washington interest in the

investigation is sustained at high pitch. It is generally realized that, the facts of the affair having been published, it is now in order for Mr. Loomis and Mr. Bowen to fight it out, with the President as an importial judge. In the highest official quarters it is frankly stated that the way is clear for the termination of an mpossible nituation. Minister Bowen cabled from Caracas

weeks ago, while Secretary Hay was still n Washington, that it was reported in Castro held a check for \$10.600, made out to Mr. Loomis by the asphalt company. This drew from Secretary Hay a rebuke he clubs and in the street that President to Mr. Bowen, Mr. Hav informed Mr. Bowen that he should not have reported cossip, and should not have sent it by e:mkile

He had not been absent long when he occived from Mr. Bowen, of whom Mr. Taft was for four years a classmate at Yale, charges described in The Republic Yale, charges described in The Republic, of these Mr. Bowen declared there was decumentary proof. He did not produce the full proofs, which he said existed. These charges were made by Mr. Bowen in a personal letter to Mr. Taff, but the Secretary decided that he could not consider them personally, as he was acting head of the State Department, but that they must be efficially investigated. Mr. Loomis not being then here, Mr. Tafft could not discharge the in-struction. This is given as the reason why on the day The Republic published the fact of

them lie has not yet submitted his answer to Mr. Taff. When received, the regly will be sent to the President. Mr. Loomis meanwhile refuses to add anything to the aweeping denial he has made. Mr. Loomis requested Secretary Taft to call life. Rowen to Washington to offer what proof he has of the charges. Mr. Taft has asked the Fresident's permission to do this, and he expects to get from Coherado tesmorrow directions as to what receivancement to make of American ministers to South American Governments, so that Mr. Howen's place in Caracas may be filled.

There is a strong possibility that W. Rossell American Minister to Colombia, formerly secretary of legation under Mr. Bowen in Caracas, will become American Minister to Venezuela.

sluggish old-fogyism for conservatism.

It is a good thing to be conservative-cautious and prudent -but there is a difference between that kind of conservatism and an obstinate adherence to methods which have outlived their usefulness. A sailing vessel of the olden time was a noble craft, but no one would to-day think of preferring it to a modern ocean liner.

The fact that in times past vour concern did not advertise should not stand in the way of your adopting this modern sales method, and it is unwise to be prejudiced against advertising for any such reason. In fact, the age, dignity and reputation of a house are proper subjects of publicity. The reasons why it is safe and wise to patronize you are public property.

Wabash Directors HOLD LOVE FEAST

As Result Ramsey Will Continue President of System and He and Gould Will Summer Abroad.

REPUBLIC SPECIAL

Now York, April 28 - All differences between Joseph Ramsey Jr., and the management of the Wabash Railroad were amicably settled to-day at a special meeting of the Board of Directors of the Wabash and Mr. Ramsey will remain at the head of the system indefinitely. This statement was made officially to-night by

Mr. Ramsey himself. That to-day's board meeting was some thing in the nature of a love feast is evidenced by the fact that Mr. George Gould and Mr. Ramsey, who were, according to report, at loggerheads, have decided to spend the greater part of the

summer abroad together. When Mr. Hamsey left St. Louis Wednesday evening, in response to an urgent request that he come to New York immediately to attend a special meeting of the Watash directors, it was his inention to retire from the presidency of the ratiroud.

the railroad.

At to-day's meeting, however, he was urged by none other than George J. Gould himself to retain his position as chief executive of the company, and Mr. Ramsey, after much persuasion, it is said, agreed to do as the said.

arged by none other than George J. Gould himself to retain his position as chief executive of the company, and Mr. Ramsey, after much persuasion, it is said, agreed to do so.

When asked this evening why he had reconsidered his determination to retire from the Wabash, Mr. Ramsey said:

'In the interest of friends who urged me to retain the presidency of the Wabash I decided to remain at the head of the road. Mr. Gould personally requested me to continue and I acquiesced."

Wall attreet has been greatly interested in the development of the Gould properties following the announcement of the financial plans of the Western Practic and the retirement of Mr. Gould from the Union Pacific, These events were preceded by the reports of a traffic war between the Gould roads and the United States Steel Corporation the resignation of Mr. Ramsey from the Phitsburg-Wabash Terminal Company and his contemplated resignation from the Wabash.

To these developments was added the resignation of Cyrus J. Lawrence, one of the old directors of the Wabash. The numerous changes had a bad effect on the various Gould shates and declines were general. Great interest was manifested to-day, therefore, when it was known that a special meeting of the Beard of Directors of the Wabash would take place, at which it was supposed Mr. Ramsey would resign.

Winslow S. Pierce, one of the directors. E.C. 1

Winslow S. Pierce, one of the directors, gave out an official statement after today's meeting, according to which it would appear that all friction is now at an end. The statement reads:

appear that all friction is now at an end.
The statement treads:
"There seems to be a misunderstanding
of the Wahash situation. No friction or
disagreement of any kind exists, and no
changes in the personnel of the management are due to any such reasons. Published reports in the nature of criticism
of the administration of the property or
indicating disappointment with its development are entirely erroneous.

indicating disappointment with its develop-ment are entirely erroneous.

"Mr. Ramsey remains as president of the company, and while it is and has been for some time past his intention to be alroad for several months, the arrange-ments for his absence have been made en-tirely at his own request. There is noth-ing in the Wabash situation involving fric-tion or ill will between him and any mem-bers of the Board of Officers of the com-pany.

but the object of his sudden departure could not be learned.
